Designing Excellence

Only by conceiving our urban and domestic environments as akin to nature, by making them permeable and transparent to it, can we reconcile the modern lifestyle with the most elementary human need – which is also man's deepest aspiration – to feel part of a whole that far exceeds our cities' boundaries, or the walls of one's home.

If urban reality is modern man's natural environment, then interior designers are gardeners who fashion private spaces in the ecosystem of forms, colors, impressions, materials, cultures and sensibilities that make it alive. They are the inventors of aesthetic grammars which hold together the individual and the universal in each single expression. Their creations are tools of perception that radically change your relationship with the world and yourself.

Graff's designer faucets and shower fixtures bring a new way of enjoying water and life, and pay homage to the most precious natural resource of our planet. They celebrate the same great creative force that raised skyscrapers as well as rainforests and takes you to the ideal point where nature, man and technology meet, on the common ground of pleasure and beauty. They make your bathroom a unique space to be in, like a new dimension that needs to be experienced before being explained. A dimension of wellness and excellence.

Créer l'excellence

Ce n'est qu'en concevant nos environnements domestiques et urbains comme proches de la nature, en les rendant perméables et transparents à cette dernière, qu'il est possible de réconcilier un style de vie moderne avec le plus élémentaire des besoins humains – qui est aussi la plus profonde aspiration de l'homme : avoir la sensation de faire partie d'un tout qui dépasse de beaucoup les frontières de nos villes, ou les murs de nos maisons.

Si la réalité urbaine est l'environnement naturel de l'homme moderne, alors les designers d'intérieur sont des jardiniers qui façonnent des espaces dans l'écosystème de formes, de couleurs, d'impressions, de matériaux, de cultures et de sensibilités qui l'animent. Ils sont les inventeurs de grammaires esthétiques qui allient l'individuel et l'universel dans chaque expression. Leurs créations sont des outils de perception qui changent radicalement notre relation avec le monde et nous-mêmes.

Les robinets et les éléments pour salle de bains de Graff proposent une nouvelle façon de jouir de l'eau et de la vie et rendent hommage à la ressource naturelle la plus précieuse de notre planète. Ils célébrent la force créatrice qui fit pousser les forêts vierges aussi bien que les gratte-ciel, et nous conduisent au point idéal où la nature, l'homme et la technologie se rencontrent, sur le terrain commun du plaisir et de la beauté. Ils font de votre salle de bains un lieu unique à habiter, une dimension nouvelle devant être éprouvée avant d'être expliquée. Une dimension de bien-être et d'excellence.

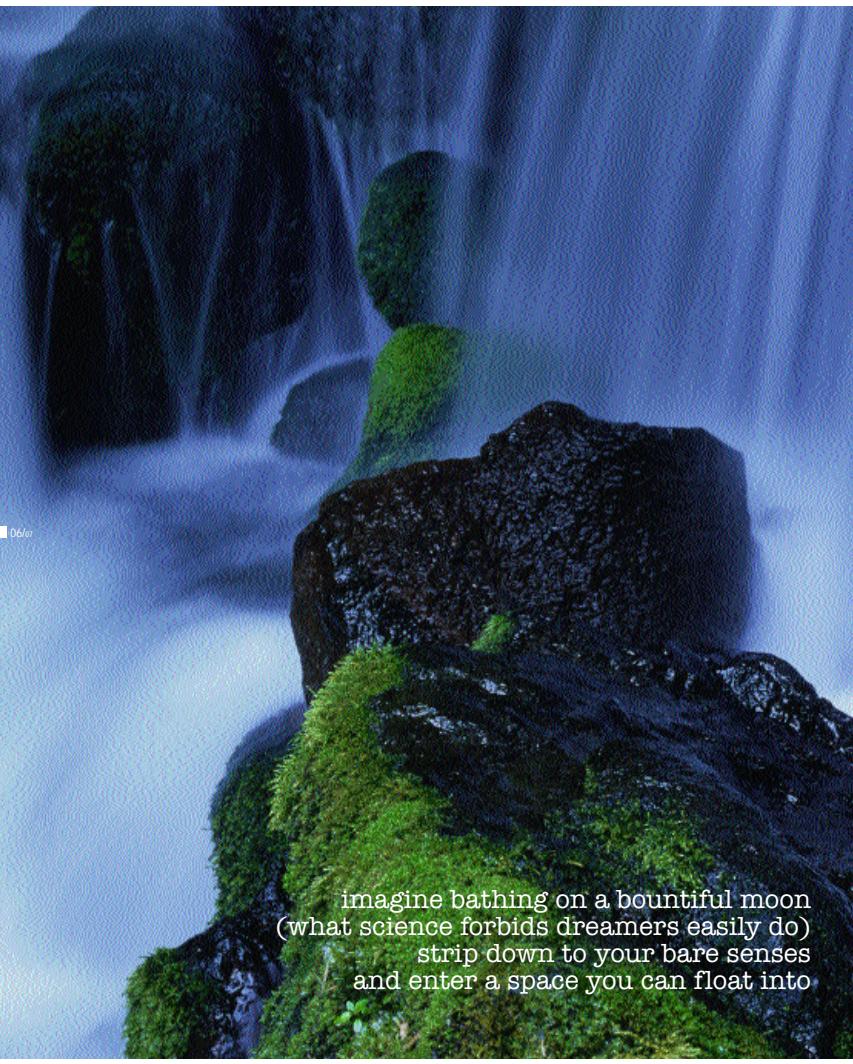

Design in seiner Perfektion

Wenn wir unser Umfeld als naturnah wahrnehmen indem wir es durchlässig und transparent gestalten, können wir einen modernen Lebensstil mit den Grundbedürfnissen des Menschen in Einklang bringen - nämlich sich als Teil einer Einheit zu fühlen. Die Grenzen des Eigenheims verwischen sich und öffnen sich der Natur.

Die Stadt ist die natürliche Umgebung des modernen Menschen geworden. Daraus lässt sich schließen, dass die Innenarchitekten die Funktion der Gärtnner übernommen haben, die unseren Lebensraum mit dem Zusammenspiel von Formen, Farben, Eindrücken, Materialien und Kulturen feinfühlig und lebendig gestalten. Sie sind die Entwickler ästhetischer Grundregeln, welche die Aussagekraft des Individuellen mit dem Allgemeingültigen verbinden. Ihre Werke sind Hinweise für uns, die unsere Beziehung zur Welt und zu uns selbst ändern.

Die Armaturen und Duschsysteme von Graff zeigen uns einen neuen Weg sich am Wasser und am Leben zu erfreuen. Sie huldigen der edelsten Ressource unseres Planeten, sie preisen dieselbe großartige Schöpfungsmacht, die die Entstehung der Regenwälder und Wolkenkratzer ermöglicht hat. Sie führen uns bis zu dem Punkt, an dem die Natur, der Mensch und die Technologie Eins werden – zum Wasser als Quelle des Lebens. Dank ihnen wird Ihr Bad zu einem Erlebnis, es wird zu einer neuen Dimension. Das „Erleben“ steht im Vordergrund – die Dimension von Wellness und Perfektion.
